Subject: FW: Oklahoma court filings

Diane,

I assume that Edmondson's office extended you the courtesy of a copy of their response to the defendants' motion regarding the Cherokee Nation's interests in natural resources in Eastern Oklahoma. However, I am attaching copies just in case that did not occur. Edmondson makes several statements in the briefs regarding the "desires" or "views" of the Cherokee Nation on various issues relevant to this case. I would be interested in discussing some of those statements with you once you have had an opportunity to review the briefs. Please give me a call at 479-290-4076 at your convenience to discuss this matter.
